

JGM Property Group Awarded Contract to Provide Field Service Management Services

Shelby Township, Michigan (May 31, 2022) -- JGM Property Group, Inc. (JGM) has won a five-year contract to provide field service management (FSM) services to the Department of Housing and Urban Development (HUD), Single Family Housing, Real-Estate Owned (REO) Division.

The scope of the Department of Housing and Urban Development's FSM contract focuses on HUD-owned, foreclosed residential properties in the Alabama, Mississippi, Tennessee (6A), and Georgia (7A) areas and includes services such as property maintenance and preservation services, property inspection, securing property, and performing cosmetic enhancements/repairs.

Building upon its more than 20 years of proven expertise in property inspections, maintenance, and preservation, JGM Property Group effectively transitioned from a tier one/two subcontractor on previous Department of HUD contracts to a premier prime position leveraging its solid foundation as a prime contractor in the property management market.

"JGM has worked hard over the past 20 years to establish ourselves as a strong, reputable, customer-focused regional provider in the single-family foreclosed property inspection and preservation business. I am excited that the Department of HUD recognized and selected JGM as the awardee on this highly competitive solicitation, and I am confident that we will exceed their performance expectations," said Joyce Gill-Milaszewski, CEO and owner of JGM Property Group.

JGM Property Group has been trusted by government and commercial clients to deliver property inspections and preservation services in some of the most challenging areas across the United States and U.S Territories including the Hawaiian Islands, Puerto Rico, and the U.S. Virgin Islands. The award of the Department of HUD's FSM contract to JGM is a welcomed and natural progression of JGM's continued commitment to its clients, subcontractor network and the communities within which we serve.

Over the next sixty days, JGM Property Group will be working to align existing and new resources to support the HUD FSM contract. Those interested in potential employment with JGM Property Group should visit their website at jgmpropertygroup.net.

About JGM

JGM Property Group is a woman-owned minority small business, located in Southeast Michigan. JGM was established in 2001 and provides a variety of services within the inspection, property management and construction fields.
